

ABOUT CONGRUENT

Founder Mani Krishnamurthy launched Congruent in 1994 as a services and contingent staffing company. Having spent his career as a programmer and offshore, custom business application development consultant, Krishnamurthy focused the company's approach on finding the best technical, fiscally responsible solution possible. Krishnamurthy has been in the technology industry since 1983 and has been involved in Offshore and project management since 1985.

Today Congruent, under Krishnamurthy's leadership and vision, has expanded their services to include:

- Business and Productivity Applications
- Offshore Software Development
- IT Staffing & Consulting
- Networking Services

MBS Customization Expertise

WHAT WE DO

Congruent specializes in providing professional software development to ISVs and MBS Partners for projects involving Axapta, Navision, Solomon, Microsoft CRM and .Net development.

All of our projects are locally managed by experienced Project Managers in the United States. The next time you run into a project that is in need of custom software development or modification, leverage Congruent's skills to increase your profit margin and decrease your turnaround time.

MBS Products:

- Axapta, Navision, Solomon, Great Plains, Microsoft CRM

Development Tools:

- Dexterity, Continuum, VBA, C/Side

Databases:

- MSSQL, PSQL

Systems Integration:

- SAP, Oracle

Analytics:

- FRx, Crystal

Additional Services:

- Add-on for Vertical Solutions
- Customer Design & Development

Congruent's MBS Team is comprised of several consultants with subject matter expertise in **Financials, FRx Reporting, Manufacturing, Distribution, and Project Series.**
