The Single Source For Your Business Technology Needs

Congruent Services

The Single Source For Your Business Technology Needs

Finding a company that provides effective solutions to your complex business issues is challenging. While many firms offer technical staffing, offshore software development, or business and productivity applications, Congruent conveniently offers all of these services and more. Whether you need consulting to improve a current business problem, customization of an existing software solution, development of an application for a unique need or a proven business or productivity application integrated into your infrastructure, Congruent has the full scope of capabilities to meet your needs.

Congruent improves business processes for growing companies with software implementation, customization and support.

Business & Productivity Applications—solutions for Financials/HR, Manufacturing, Supply Chain, Project, Professional Services, Customer Support and Retail Management using products such as Great Plains, Solomon, Navision, Microsoft Customer Relationship Management (CRM) and SharePoint among others

Networking Services—needs assessment and implementation of software and hardware, platform and server technology, network design, administration and analysis, telecommunications consulting, network infrastructure, software licensing and network security

Offshore Software Development—experienced global development resources combine with proven local project management to guarantee timely delivery of custom software at reduced project costs

IT Consulting—stringent technical screening enforces our “quality over quantity” policy, facilitating shorter hiring time and faster project delivery. Our area of specialization includes Oracle, SAP, AS/400, Java and Microsoft technologies comprising of .NET, C#, C++, XML, Web Services and SQL Server.

As a single source for your technology needs, Congruent has developed a structured methodology that delivers the smoothest, most cost-effective implementation experience available.

Why Choose Congruent

Congruent is committed to excellence. We believe in creating partnerships with the businesses we serve to keep us in line with their goals and allow delivery of relevant solutions for their ever-changing business needs.

Congruent is proud to have achieved the highest partnership level available within Microsoft’s certified partner program with extensive knowledge of both current and emerging Microsoft technologies.
